

A Stanley Group Company  
Engineering, Environmental and Construction Services - Worldwide

## STANLEY CONSULTANTS, INC. FACT SHEET

- Stanley Consultants provides engineering, environmental and construction services worldwide.
- Established in Muscatine, Iowa as Central States Engineering in 1913. The firm was renamed Young and Stanley in 1932, Stanley Engineering Company in 1938, and Stanley Consultants, Inc., in 1966.
- Serves industrial, institutional, government, commercial, and utility clients in all 50 states and international clients in 98 countries, representing more than 23,000 engagements.
- Corporate headquarters located in Muscatine, Iowa, with additional offices in Austin, Texas; Baton Rouge, Louisiana; Boise, Idaho; Chicago, Illinois; Denver, Colorado; Des Moines and Iowa City, Iowa; Las Vegas, Nevada; Minneapolis, Minnesota; Naples and West Palm Beach, Fla.; Phoenix and Kingman, Ariz.; St. Louis, Missouri; Salt Lake City, Utah; and San Juan, Puerto Rico, as well as select international locations.
- Registered as a professional multidisciplinary consulting firm with most major governmental and regulatory agencies in the U.S. and with similar agencies in the countries in which business is conducted.
- Comprised of 1,500 qualified experienced professional, technical and support staff members representing the major disciplines in the fields of engineering, architecture, environmental sciences, planning, management, and economics.
- A 100 percent member-owned company.
- Approximately 350 members carry professional registrations in 48 states and several foreign countries.
- Employs members who belong to nearly 90 professional and technical societies and associations.
- Ranked No. 1 by *CE News* magazine in 2002 as the country's Best Civil Engineering Firm to Work For in recognition of the company's growth and stability and its efforts to provide satisfying growth opportunities for its members, a relaxed and professional work environment, open-door management, and cooperative team projects.
- Named by AARP in 2005 as the nation's Best Employer for Workers Over 50.
- In 2008, *Engineering News-Record* (ENR) ranks Stanley Consultants as No. 57 in the top 500 design firms in the U.S., and No. 91 in the top 200 international design firms.
