

PORTFOLIO

Professional Services and Project Types

Energy/Industrial

Air Pollution Control Systems
Automated Mapping/Facilities Management
Central Chilling/Heating Plants
Cogeneration
Coal-Electric Generation Units
Communications Systems
Distribution Automation
District Energy Systems
Emissions Control
Energy Conservation
Fluidized Bed Combustion Systems
Gas, Oil, and Diesel-Driven Generators
Heating, Venting and Air Conditioning
High Reliability/High Availability
Power System
Hydroelectric Plants
Industrial and Institutional Utilities
Instrumentation and Controls
Materials Handling
Performance Testing
Plant Inspection and Evaluations
Power Generation
Rural Electrification Programs
SCADA systems
Steam-Electric Generation Plants
Substations
Transmission and Distribution
UPS Systems
Utility Distribution Systems
Utility Mapping Systems
Utility Master Planning Studies
Utility Planning Studies

Land Development/Resource Management

Parks, Open Space and Recreation
Community Planning
Industrial Park Complexes
Residential and Commercial Site
Development
Downtown Beautification Programs
Urban and Regional Planning
Flood Protection and Control
Irrigation and Drainage
Natural Resource Management

Management

Construction Management
Design-Build
Expert Witness
Master Planning
Value Engineering
Program/Project Management
Cost Estimating and Control
Start-up and Operator Training
Operations and Maintenance Services
Technical Management

Environmental

Asbestos and Lead Paint Surveys
Air Quality Permitting and Modeling
Biological Resources Studies
Brownfield Investigation and Development
Chemical Risk Assessments
Ecological Risk Assessment
Assessment/Impact Statements
Audits and Permitting
Environmental Management Systems
Environmental Safety
Environmental Site Assessments
Hazardous and Solid Waste Management
Land Reclamation and Brownfield
Development
Landfill Studies and Design
Municipal and Industrial Waste Treatment
Noise Control and Reduction
Noise Monitoring and Modeling
Pollution Prevention, Abatement and Control
Regulatory Compliance
Remedial Action Management
Siting Studies
Socio-Economic Studies
Solid Waste Management
Spill Prevention, Control and
Countermeasure Plans (SPCC)
Storage Tank Site Investigations and
Corrective Action
Storm Water Measurement
Strategic Environmental Management
Stream/Watershed Modeling
Transactional Assessments
Total Maximum Daily Load (TMDL)
Water Pollution Control/Treatment
Wetland Delineation, Studies, and Mitigation

Planning, Design and Studies

Architectural Design
Computer-Aided Design and Drafting
Design-Build Engineering
Economic Studies
Electrical Design
Engineering Design
Engineering Feasibility Studies
Environmental Studies
Geographic Information Systems (GIS)
Landscape Architecture
Mechanical Design
Site Planning
Site Selection Evaluations
Structural Design
Surveying and Mapping
Transportation Engineering and Planning
Urban and Regional Planning Programs
Utility Planning

Infrastructure

Building Expansion and Renovation
Coastal Engineering and Erosion Control
Commercial Airports
Dams and Reservoirs
Expressways and Interchanges
Highways, Streets and Bridges
Incidental Railroad Spurs
Jetties and Piers
Land Development
Marinas
Military Airports
Military Facilities
Navigation Lock and Dam Rehabilitation
Parks and Recreation
Ports, Harbors and Marinas
Real Estate Acquisition
Runway Extensions
Site Utilities/Development
Storm Water Retention/Detention
Surveying and Mapping
Traffic Control and Signalization
Wastewater Collection, Treatment, and Reuse
Water Resources/Hydrology
Water Supply, Treatment, Distribution and
Storage
Waterfront Development

Facilities

Architectural Buildings
Commissioning
Industrial Buildings
Industrial Process Facilities
Building Inspections and Evaluations
Building Mechanical
and Electrical Systems
Building Specialty Systems

- Security Access Control
- Fire Detection and Alarm
- Network and Communication

Clean Rooms
Facility Master Planning
HVAC System Studies and Upgrades
Plant Inspection and Evaluations

Stanley Consultants

A Stanley Group Company
Engineering, Environmental and Construction Services - Worldwide

800.553.9694
